Hatco Glo-Ray® Infrared Foodwarmers safely keep all hot foods at optimum serving temperatures longer. Foods do not dry out or become discolored; even the most delicate dishes hold that "just-prepared" look. The Glo-Ray pre-focused heat pattern directs heat from a tubular element to bathe the entire holding surface.

FLEXIBILITY

The continuous housings, up to 12' (3658 mm) in width (aluminum only), are very strong and eliminate the danger of sagging. Sturdy stainless steel housings are available up to 8' (2438 mm).

An on-off switch may be installed in front or back of the unit to suit the location. **Remote control installation is recommended on all installations to extend the life of the controls.** Many combinations of remote control enclosures are available in several sizes, built in accordance with UL Standards to accommodate power switches, infinite controls, indicator lights, and wiring.

Optional sneeze guards, made of shatterproof, easy-to-clean acrylic, are available, providing a safe environment for the food. Check NSF standards and local codes for requirements.

The color options help blend warmers into any décor.

All Glo-Ray models are shipped factory-assembled, with mounting tabs, ready-to-install quickly and easily.

QUALITY

The following features assure the finest performance for years to come:

- Available in widths from 18" to 144" (457-3658 mm).
- Sturdy continuous aluminum housings eliminate sagging.
- Pre-focused heat maintains serving temperatures longer without continuing to cook the food.
- Variety of models, configurations, colors, finishes and accessories provide unlimited design flexibility.

Model GRAH-36 with optional *Designer* color, infinite switch, cord and plug set*, and accessory C-leg stand
